

PUBLICATIONS

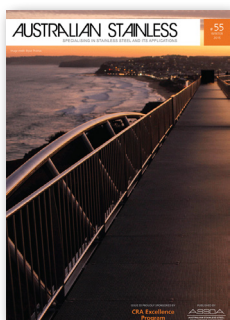

2012 Australian Stainless Reference Manual (current edition)

An industry guide and comprehensive resource to stainless steel with over 220 pages of technical information, including:

- › Properties and performance
- › Grade selection
- › Surface finishes
- › Design
- › Fabrication
- › Product specifications
- › Conversion tables

Australian Stainless Magazine

A leading industry magazine devoted to showcasing the unique diversity and durability of stainless steel. Showcasing innovative Australian fabrication, the magazine aims to assist specifiers and end users of stainless steel.

Blue Book: Code of Practice

Code of Practice for the Fabrication of Stainless Steel Plant and Equipment, prepared by the New Zealand Stainless Steel Development Association.

The Blue Book is intended for use as part of a tender or contract for fabrication and functions as a specification. It applies to any stainless steel fabrication and is valuable in food equipment manufacturing.

Stainless Steel Stock Guide

The *Stainless Steel Stock Guide* (Edition 4 - February 2009) is a generic stock list of products reported to be regularly available ex stock. Essential resource for anyone designing in stainless steel.

Contents include: Coil, sheet and plate, bar, wire, pipe and tube and safety flooring products.

Stainless Steel Technical FAQs

Answers to frequently asked questions about stainless steel:

- › FAQ 1: Galvanic/Dissimilar Metal Corrosion
- › FAQ 2: Cleaning Your Indoor Stainless Steel
- › FAQ 3: Magnetic Effects of Stainless Steels
- › FAQ 4: Testing for Grade Confirmation
- › FAQ 5: Galling and its Control
- › FAQ 6: Preventing Coastal Corrosion (Tea Staining)
- › FAQ 7: Guidelines for Use of Stainless Steel Underground
- › FAQ 8: General Corrosion Resistance
- › FAQ 9: Welding Dissimilar Metals

Stainless Steel Technical Alerts

› Stainless Steel Threaded Fittings

A4 page technical bulletin for use in educating specifiers and end users of low and high pressure fittings.

› Stainless Steel Hydrofluoric Acid Scheduling

Outlines changes to the National Drugs and Poisons Schedule and their impact on the stainless steel industry.

› Stainless Steel in the Airspace of Indoor Pools

Explains stress corrosion cracking and preventative measures available to indoor pool owners.

TRAINING

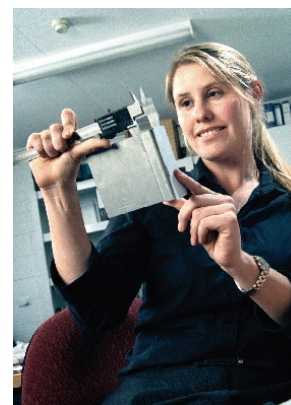

Stainless Steel Specialist Course (SSSC)

ASSDA's SSSC is an advanced and effective e-learning tool that provides a standard level of knowledge and qualification across the industry.

Featuring 17 challenging and rewarding training notes covering virtually every aspect of stainless steel. Recommended for all industry participants, from senior management to floor workers.

Choose from two levels of certification: Intermediate Certificate (min. 5 subjects) or Full Certificate (min. 12 subjects).

Available online via the International Stainless Steel Forum (ISSF).

ASSDA Seminar Proceedings

Missed a seminar? Workshop proceedings (PDF copy of the presentation + relevant technical publications) are available to purchase on USB. See www.assda.asn.au for previous topics.

ACCREDITATION

ASSDA Accreditation is an industry-based scheme designed to establish a benchmark for stainless steel fabricators to become recognised providers of a standardised level of quality.

ASSDA Accredited Fabricators are fabricating companies and individuals who hold a common understanding of what are successful technical practices when fabricating stainless.

The Stainless Steel Specialists Register lists those businesses which are competent, for defined business functions, in the supply of semi-finished materials, and/or design, fabrication, and installation of stainless steel structures and equipment.
